How to use the Carver Tuition Fee Schedule for 2011/12:

1. Determine whether you need to use the first or second table
2. Find the column that contains the number of students you have at Carver
3. Find the row that contains the grade of your oldest child at Carver
4. Find your rate where the row and column intersect.

Example 1: A family with children in grades 9 and 12 at Carver and none at VCS or JKCS will pay \$9,880

Example 2: A family with children in grades 9 and 12 at Carver and a child at VCS or JKCS will pay \$7,904.
